GARRISON MSS.

24

Dear Garrison — I have just
rec'd y' proof-sheet of Pillsbury's
sketch, for which accept my thanks
— personal editorial. I shall
copy y' Channing discussion for tho'
a good many of our readers have
seen it already it ought not
to pass unrecorded in y' Standard.
I hope you will let me have
slips of y' speeches as fast as you
print them, if you can let me
know beforehand how much is
wanted I can calculate accordingly
for our Columns.
We have been

overwhelmed y^r best wish with
anxiety for our little boy. He has
been cutting his last teeth for sev^l
days or two it seemed im-
possible that he could rally ~~from~~
from y^e almost entire prostration of
y^r system, & escape a threatened at-
tack on y^e brain. He seems a little
better to-day, tho' y^r struggle is
not yet, I fear, altogether over.

Yours truly —

S. H. Gay —
